Masked Bandits Shoot Up Resort On Darboy Road

Clover Inn Roadhouse Held Up and Bandits Escape with \$130

FARMERS FORM POSSE

Employe and Customers Forced to March Mile Down Road

Authorities of Calumet-co are searching for two masked bandits who held up the Clover Inn roadhouse, Darboy rd., Wednesday night and got away with about \$130 in cash. The men staged a little shooting match in the resort and forced one of its employes to march down the road, after which the bandits emptied the cash register of \$50 and took away two slot machines containing about \$80 in silver. The Clover Inn, formerly known as the Blazing Stump, was deserted at about 8 o'clock Wednesday night except for an employe, Ernie Mandie. The latter was astounded when he saw two masked men, pointing revolvers at him, walk into the place and order him to throw up his hands.

VISITORS MARCHED OFF

While the bandits held the employe covered with the revolvers two visitors entered the resort, whereupon the bandits ordered them all out and marched them down the road for about a mile. A half mile from the place, the bandits turned back but ordered the pedestrians to keep on walking and not to turn around. The bandits took a short cut over a field and hastened back to the resort. Evidently fearing to lose time, they took the slot machines with them instead of trying to open them on the premises.

The employe gave the alarm at the nearest farm house and immediately the telephone wires were hot with the news of the holdup. An effort was made to head off the men.

FARMERS FORM POSSE

A group of farmers of that vicinity armed themselves with shot guns and other arms and gave pursuit, but the masked men escaped. They used a Ford touring car. An incomplete description of the men was given. One of the men wore a red handkerchief over his face, and the other used a white handkerchief as a mask. The former was tall and somewhat slender and appeared to be the leader of the two, while the other was short and stocky.

According to Louis Soffa, new proprietor of the establishment, the walls had been shot through with bullets. The fact that several other roadhouses have been held up in this section quite recently leads to the supposition that the masked men at the Darboy rd resort are making a circuit of roadhouses in the state. Sheriff Charles Groeschel of Chilton is working on the case.

CHARGE LANDLORD BOTHERED TENANT

Hortonia Farmer Wants Court to Keep Farm Owner Off Property

After the opening of testimony in the case of Ernest Mischler vs. George J. McElroy in municipal court Friday noon, the case was held open until next week. Mr. Mischler, wife of the plaintiff, was the only witness to take the stand and her examination lasted for two hours.

The case involves a dispute over the management of a farm in Hortonia owned by the defendant and worked by the plaintiff. A contract had been entered into according to which Mischler was to work the farm on shares. Both parties accuse the other of withholding a portion of the income, the plaintiff demanding damages of \$1,000 and the defendant \$1,800.

Mrs. Mischler testified that the owner of the farm caused her husband and herself great mental distress by meddling with the tenant's affairs. The Ku Klux Klan was injected into the case when Mrs. Mischler said that her husband had been induced by the landlord to join the order and had promised him he would pay the initiation fee of \$10, but that this amount was later reduced from her husband's pay. The contract does not expire until Mar. 15, but the Mischlers want the owner restrained from interfering with the farm management, and the defendant wants the tenants removed.

U. S. CONGRESS MUST ACT TO PACIFY JAPAN

Elements in Situation in Time May Operate to Alter Friendly Status

ACCIDENT MAY CAUSE WAR

Bar to Japs Is Assertion of Domestic Rights, Not Deliberate Insult

BY DAVID LAWRENCE

Copyright 1924 by the Post Pub. Co. Japan and the United States officially are the best of friends and there exists a thorough understanding on both sides of the Pacific of the elements in the situation which may operate in time to alter that state.

The problem has been smoldering ever since the congress adopted legislation excluding the Japanese, thereby refusing to accept the proposal of President Coolidge and Secretary Hughes that time be given for international negotiation so that the same object might be achieved without offending Japan. Well-meaning citizens in this country have been making speeches and writing articles emphasizing what seemed to them the injustice that had been done to Japan and predicting that unless the controversy was tackled in its incipency, the episode might in time inflame public opinion to such an extent that an untoward incident or accident might bring on war.

SEEKS INFORMATION

Having in mind that some plan might be under consideration to cure the situation, the writer sought from the highest sources information as to the purposes of the American government. Would a treaty be made with Japan which would take care of the points in dispute and thereby supersede the act of Congress when ratified by two thirds of the United States Senate? Or would an effort be made to get a straight out repeal of the troublesome provision with a promise to congress that another gentlemen's agreement be negotiated whereby absolute exclusion could be secured.

Neither of these courses seems for the moment in contemplation. There is no disposition to appeal to congress to give up the assertion of its right simply to establish the foreign policy of the country on a better basis. Eleven years ago, congress was asked to repeal a law which was purely within its rights as domestic legislation, namely the law governing tolls at the Panama Canal, but the chief executive pleaded for repeal in the interest of international unity and Republicans voted with Democrats to grant that request.

OBJECT TO REVERSAL

But the same reasoning which causes hesitation to ask congress to repeal the provision of the law passed last spring with respect to Japanese immigration is applied by the administration in Washington to the suggestion that a new treaty be negotiated to supersede the existing law. It is namely that congress is not in the mood to reverse itself. The executive branch of the American government does not believe it is wise to raise expectations in Japan that something can be done only to have disappointment result from the inaction of congress itself, the recurrence of agitation is believed to be harmful to the relations of the two countries.

This is on the assumption, of course, that time will heal the breach and that left to themselves the people of the two countries will come to understand that what has happened was the assertion of a domestic right by congress and not a deliberate intention to hurt the feelings of the Japanese people.

Underwood Asks Probe Of Newspaper's Attack

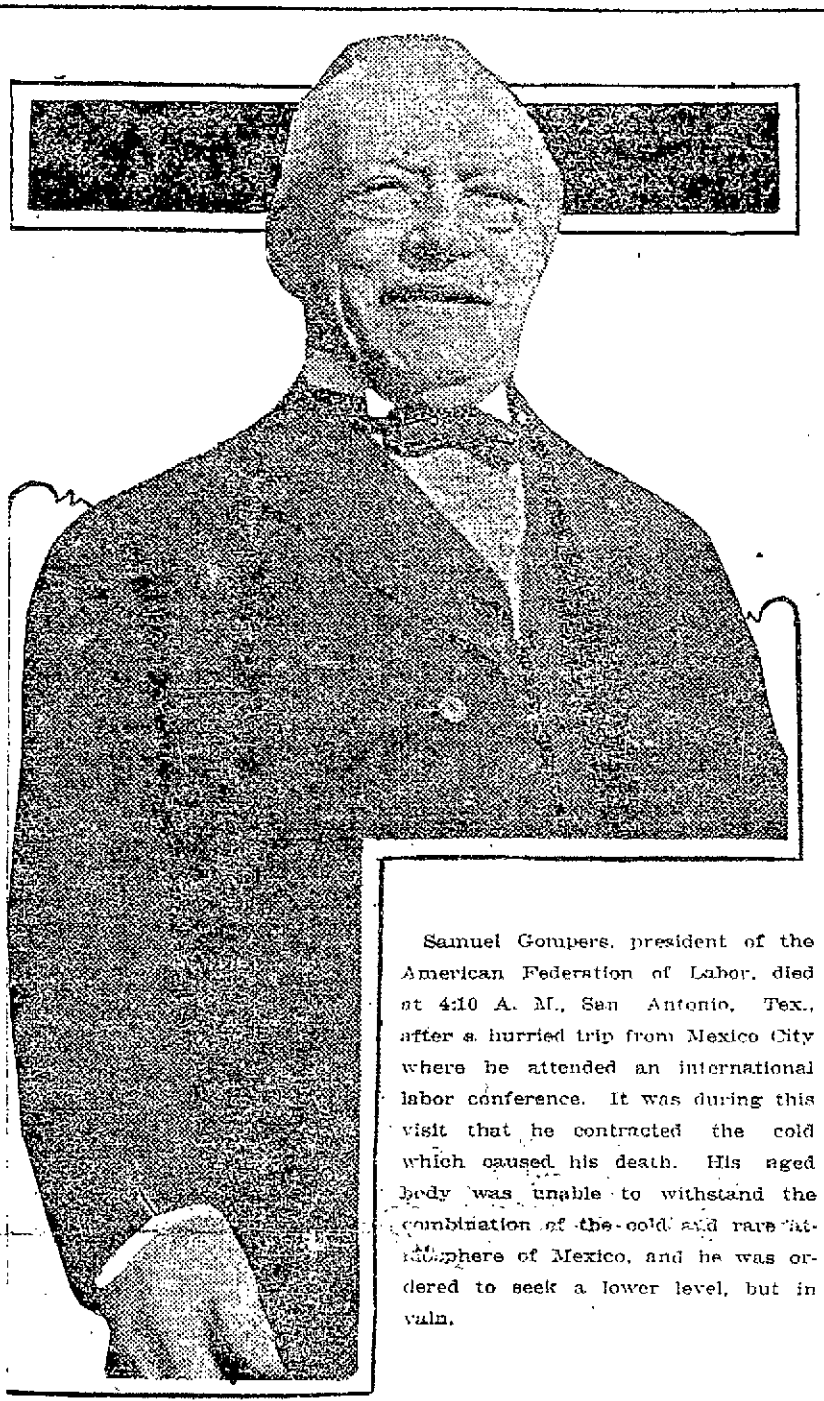

Alabama Senator Resents Allegation of Washington Herald That He Accepted Power Firm's Bribe

By Associated Press

Washington, D. C.—Senator Underwood, Democrat, Alabama, Saturday obtained unanimous consent of the senate to have a senate investigation of statements made about the Underwood Muscle Shoals bill and himself, in an editorial appearing in Saturday's issue of the Washington Herald.

Labor Leader Passes

Samuel Gompers, president of the American Federation of Labor, died at 410 A. M., San Antonio, Tex., after a hurried trip from Mexico City where he attended an international labor conference. It was during this visit that he contracted the cold which caused his death. His aged body was unable to withstand the combination of the cold and rare atmosphere of Mexico, and he was ordered to seek a lower level, but in vain.

227 BOY SCOUTS PASS IN REVIEW AT VALLEY MEET

Record Attendance Accompanies Neenah Gathering—Menasha Troop Is Leader

Two hundred twenty-seven boy scouts turned out for the rally at Neenah Friday evening, setting a record for attendance of troops at a gathering of this kind. Troop No. 3, of St. Thomas Episcopal church, Menasha, made the best showing in the inspection by Capt. W. H. Kuehl of Neenah.

This was the first time all the boy scouts of Valley council, Boy Scouts of America, had been brought together in about two years. The attendance was beyond the expectations of P. O. Kelcher, valley executive. Parents and friends of quite a number accompanied the boys, swelling the attendance at the gathering at Roosevelt school gymnasium. Scouts and others were present from Neenah, Menasha, Appleton, Kimberly, Little Chute and Kaukauna.

REVIEWED BY CAPTAIN

Courtesy, efficiency and memory formed the basis of the inspection conducted by Capt. Kuehl. The scouts were lined up around the gymnasium within a minute or two was accomplished by troop 5, All Saints church, Appleton. First aid was shown by troop 3, Menasha Woodmenware Co., Menasha.

Rescue and antelope races and a tug-of-war were the closing features of the program.

Another rally will be held in February at Kaukauna, conducted along lines similar to this one.

SHOW KNOT TYING

Knot tying skill was shown by members of troop 6, St. Mary church, Appleton. Building of a small bridge within a minute or two was accomplished by troop 5, All Saints church, Appleton. First aid was shown by troop 3, Menasha Woodmenware Co., Menasha.

Gompers' Final Wish, To Die On Home Soil, Fulfilled Saturday

Problem Of Caring For Needy Is More Acute In Appleton This Year

Unemployment in Appleton this year has made the problem of caring for the poor and the helpless considerably more acute than it was a year ago. In spite of the apparent prosperity in the city and the fact that almost all the industries are busy, there is an exceptional amount of idleness this year, women in charge of relief work here find.

This is due, it is said, to the large number of families that moved to the city in the last year and found employment in mills here. During the summer quite a number of local men had employment in outside work but when cold weather arrived they sought work in the mills. The jobs they usually obtained are held by men who had come to the city during the summer and as a result there is considerable idleness.

This situation aggravates the usual winter condition here. The relief organizations have not had nearly enough money to care for helpless widows and children and now they also must do something for families in want because the fathers are unable to find employment.

Relief societies require about \$3,500 a year to carry on their work with any degree of effectiveness, their experience shows. Heretofore the Good Fellows club has provided about half of that amount, leaving the remainder to be raised by the relief workers. As a result the women spent much of their time trying to raise the money and their relief work was hampered.

Good Fellows this year are asked to provide the entire budget of \$3,000. To do this it will be necessary for Good Fellows to be just a little more liberal this year and for those who have not been Good Fellows in the past to enroll their names in the organization. On another page of this paper you will find the names of those who already have enrolled in the 1924 Good Fellows club. The membership fee should be dictated by heart and conscience.

NEVER WILL HAVE TOO MANY TRAINED TEACHERS IN U. S.

Green Bay Principal Speaks on Teacher Supply to School masters Club

Sixty-seven teachers from the Fox River valley and vicinity attended the meeting of the Fox River schoolmasters club Friday night in the Con-way hotel. Appleton teachers provided the entertainment, while the speakers were O. F. Nixon, principal of East Green Bay high school, and H. A. Brown, president of Oshkosh Normal school.

Mr. Nixon spoke on Teacher Training and Teacher Supply. He pointed out the great number of untrained teachers in the United States, saying there were 30,000 teachers who had only finished the eighth grade and there were 300,000 teachers who had no professional training.

Mr. Nixon declared there never will be a time when there will be too many trained teachers.

The state board of normal school regents has prepared a bill to be submitted to the coming legislative session permitting normal school boards to grant degrees to graduates of a four year normal school course. H. A. Brown, president of Oshkosh Normal school told the teachers.

Wisconsin is one of the two states that offers a four year normal course and yet cannot grant degrees. Mr. Brown said. It also is one of twelve states which have not yet granted degree privileges to normal boards.

He urged legislative support of the proposed bill on the ground that the state normal schools can not be recognized as high grade professional schools unless they become degree-granting institutions.

The visiting teachers were well pleased with the singing of Appleton high school chorale of 150 voices. The chorus sang two selections from "The National Anthem" and "The Star-Spangled Banner" and the light opera presented by the music department. Recently, Carl McKee, leader of the glee club and director of the orchestra, sang several solos, and G. Bernard Behnen played a number of euphonium solos. The high school orchestra furnished music.

Veteran Leader Succumbs to Cold Contracted in Mexico City

DIES FIGHTING BRAVELY

Last Words Were Blessing on American Institutions He Fostered

By Associated Press

San Antonio, Tex. — Samuel Gompers, grand old leader of the American Federation of Labor, is dead. His last wish—death on American soil—was granted.

Surrounding Mr. Gompers in his last moments were the men with whom he had fought many of labor's battles through a generation of American labor development. At his bedside and holding his hand were James Duncan of Quincy, Mass., vice president of the federation, who has stood shoulder to shoulder with his leader for 44 years. Their parting was pathetic. Holding his hand also was William D. Malton of Detroit, president of the Amalgamated association of Street and Electric Railway Employees, whom the dying federation president affectionately called "Bill," and whom he had told several days ago that he wished to shake his hand just before he went.

There were others no less close to Mr. Gompers. John E. Giles, cashier of the federation, Martin Ryan of Kansas City and Mathew Woll of Chicago. All members of the executive committee were there. Frank Morrison, secretary of the federation, was close at the death bed. Most of the faithful leaders were there when President Gompers gave up his last fight.

There also was his nurse, Mrs. Marie Jameton of New York City, who had been with him since his illness of last August. She remained kneeling at the foot of his bed as the shadow of death crept over the stricken leader.

NEVER GAVE UP

Death found Sam Gompers as if he found him—a fighting man. He never gave up. When told by his physician that he was passing, his jaw clenched, as tightly as feeble strength would permit. He breathed heavily, but he never said "I give up."

Mr. Gompers' last thought was of the American institutions he had labored so long to maintain. When he was convinced he could not win the battle, he said to his nurse:

"Nurse this is the end. God bless our American institutions. May they grow better day by day."

Those words took his last strength and after that he was not able to utter a syllable.

Until the moment when he slipped into unconsciousness about one P. M. before his death, he was able to look into the future and was master of his own situation. He gave a few simple directions from his funeral, should they come before morning.

He talked to his followers, he called for "Uplifting friends whose hands he wanted to clasp before slipping on into the unknown."

With all the energy that his worn, 74-year-old body could muster, he grappled with the enemy that had come to claim him.

When Mr. Gompers took ill in Mexico City a few days ago, he expressed the wish that if he was to die, he wanted to pass away on American soil.

His wish to reach his own country before death should overtake him almost was defeated, for he sank very low on the journey up from Mexico City.

ILL FOR YEARS

The complications which combined to end the career of the famous labor leader would have been, his aging body for several years, according to physicians, but the final acute attack was brought on by a chance of weather in Mexico City, which resulted in a cold and congestion of the lungs, and the body worn by intense labor at the recent American Federation of Labor convention in El Paso, could offer little resistance to the assault.

His mind and will, however, resisted with all their might, and their determination to live, if only a few hours longer, enabled him to go to his final rest in the country where his "laboring men" he has championed and defended through a whole life time. In his dying moments, Mr. Gompers had an opportunity to witness the affection in which he was loved by his own people and the public as well. As his cot was being lowered from the special car in the railroad yards here Friday a great throng gathered to have a peek at the sick man.

BROCKHAUS WINS ORATORY CONTEST

Appleton Young Man Takes First Place in Valley Meet in Manitowoc

Herman Brockhaus, Appleton high school senior, won first place in the El River Valley forensic conference at Manitowoc Friday with his oration, "The Denial of Equality." Manitowoc high school won second place and West Green Bay high school took third place.

The Valley forensic conference is the organization through which the debates, oratorical and declamatory contests and extemporary speech contests are conducted. Eight schools, East Green Bay, West Green Bay, Appleton, Marinette, Sheboygan, Manitowoc, Fond du Lac and Oshkosh, are included in this conference.

Mr. Brockhaus is one of the most prominent students in Appleton high school. He is a member of the student council, editor of the school newspaper, "The Tattler," and was given the highest honor that can be conferred on a senior, that of keeper of the flag. This honor is given to the most worthy senior boy and girl each year.

JURY SAYS WOMAN WAS NOT INJURED BY INSANITY HINT

Mrs. Vanda Barth Loses Effort to Force Neighbors to Pay Her \$5,000

A verdict in favor of the defendants was rendered in municipal court Friday by the jury that was trying the \$5,000 damage suit of Mrs. Vanda Barth vs. John Jarchow, J. M. Laux and Charles H. Craven, all of the town of Cleere. Mrs. Barth demanded reparation for damage to her reputation and credit which she said resulted from a petition of the defendants to have her examined as to her sanity.

A special verdict containing three questions was submitted to the jury. The first, asking whether the petition had been filed by the defendants was not disputed and therefore answered by the court in the affirmative. The second inquiring whether this act of the defendants had been done maliciously was answered in the negative by the jury. The third question asked the jury to fix the amount of damages suffered by the woman. No damages were allowed.

The charge was given to the jury at 1:34 Friday morning, and after taking out time for dinner, the jury reported with a verdict at 2:10 in the afternoon. Keller and Keller represented the plaintiff, while Leonard and Studd represented the defendants.

4 A. A. L. BRANCHES WILL ELECT SUNDAY

Several branches of the Aid Association for Lutherans are scheduled to meet Sunday to elect local officers and national trustees and directors. Ballots must be in the home office here by Dec. 19 as they can be counted by the board of directors at the annual meeting Dec. 20.

Branch No. 1, Appleton, will meet at 7:30 Sunday night in the club-rooms in Insurance-bldg. Branch 485, Appleton, will meet at 8 o'clock in the evening at Mount Olive church.

The branch at St. John Lutheran church, town of Center, and Trinity Lutheran church, town of Ellington, will meet in the afternoon.

\$84,500 PAID TO CHRISTMAS CLUB SAVERS BY BANKS

1,125 Persons Were Members of Savings Clubs in Four Appleton Banks

Two thousand, one hundred and twenty-five Appleton and Outagamie county residents have \$84,500 to spend for Christmas. This is the sum which the four Appleton banks distributed in Christmas savings checks. While many will spend their checks for Christmas presents, others have signified that the money is to go for taxes, to be added to savings accounts or used for some other purpose.

The Christmas club is a bank account whereby the subscriber pays a specified amount each week for 50 weeks. At the end of this time the total amount paid in, plus interest is sent to him. There are various kinds of clubs, those that start with one cent and increase a penny each week for 50 weeks, those that start with 50 cents and decrease a penny each week for 50 weeks, those that start with larger amounts and increase or decrease and those into which are paid a regular amount each week.

The total amounts received at the end of 50 weeks run from \$12.75, plus interest, to \$250, plus interest. The most popular account, at all the banks, is the one in which \$2 is deposited each week, totaling \$100. The \$50 club, into which the subscriber pays \$1 a week, also is popular.

Three of the banks found that of the increasing and decreasing accounts, the increasing were most popular, while another bank reported that most of its patrons preferred the decreasing plan. It is seldom, the bank tellers declared, that people allow themselves to fall behind in their accounts.

Of the increasing and decreasing clubs, the most popular is the one that increases or decreases five cents a week. In some cases it was said that people join an increasing club without realizing that the final amounts will naturally be larger and find that it is impossible to keep them up. Because Christmas time usually is expensive time, many prefer to start with a low amount and increase. Others for the same reason start high and decrease so that the amounts paid a few weeks before Christmas will be small.

MILWAUKEE BOXER SHOT ACCIDENTALLY, IS CLAIM

By Associated Press
Milwaukee—Sammy Cranden, local featherweight boxer, is in a hospital suffering from a gunshot wound, the result of an accident, according to the police. Cranden visited a friend in a local cafe Thursday and when examining a pistol, it was accidentally discharged, the bullet taking effect in Cranden's chest.

Students Get Knowledge Of Staging Plays

A broader general knowledge of play production is the purpose of Prof. W. F. Orr in presenting an all-college play at Lawrence this year. Tryouts for the class in play production, from which the characters in the play will be chosen, will be held next Monday.

Each candidate will be required to learn a part in "Dulcy," a three act comedy, one of the popular plays of the 1921 season. Monday the parts will be placed together and the best actors of their parts will be chosen.

The class will be limited to about fifteen members, but every member will have a part in the play. If not winning a character part, they will have opportunity to work out details either in lighting, costuming, or scenic effects; some will receive practice in directing rehearsals, some will handle the business administration. In this way a broad knowledge of play production will be obtained.

It has been Prof. Orr's policy to alternate the type of play produced each year. Last year a serious play was presented, "Passing of the Third Floor Back" by J. M. Barrie, so the probable selection this year will be a modern comedy. Several comedies by contemporary playwrights have been considered, but no choice has been made.

SUSPEND MOVIE SERVICE DURING MUSIC FESTIVAL

No motion picture will be shown at the First Congregational church Sunday evening because the church will be closed so its members may attend the community Christmas musical festival at Lawrence Memorial chapel. Christmas exercises by the Sunday school are planned for Sunday evening, Dec. 21. Henry Van Dyke's Christmas story, "The Other Wise Man," will be read at the service and will be illustrated by stereopticon slides.

Run On False Alarm
A false alarm pulled at box No. 55 at the intersection of State and Franklin streets sent the firemen on a wild goose chase at about 6:30 Friday evening. No one was seen tampering with the alarm box, which led firemen to suppose that the alarm had been started by being struck by a snow ball.

RADIO PROGRAMS

Play lovers enjoyed The Bells from WGY Friday night. The only criticism heard was that the WGY players are not on the air often enough.

Some of the features of Saturday night's program are Phil Romano's new Kenmore dance orchestra from WGY, one of the best groups of juvenile artists of the country, St. Michaels Boys' Band from WEAF, a special program from KDKA, and special late programs from the Chicago stations.

Monday is a feature night for radio. Several extra fine programs, including the opening of a new General Electric station, are on the air. Watch for the announcement Monday evening.

THE COOLIDGE TAX POLICY

The administration is to make another attempt at the specific tax reduction recommended by Secretary of the Treasury Mellon. His plan is to put into effect a maximum tax of 25 per cent upon the largest incomes. We think the administration is justified in assuming that the result of the election is an endorsement of this proposal. Probably nothing has done so much as its efficient, economical and altogether businesslike handling of the nation's finances to inspire public confidence.

Mr. Coolidge has placed more emphasis on economy, and with it tax reduction, than upon any other policy of the government. The conclusion that our national prosperity, and hence the prosperity of the individual, is primarily dependent upon this program is entirely correct. It is the principal thing the government can do for our material advancement.

The record clearly shows that we have taxed incomes so heavily that capital has to a large extent gone out of productive business, for the simple reason that it cannot pay the tax and have as much left as it could earn by investing in tax exempt securities. In the year 1916 those with incomes in excess of \$300,000 reported a total income of approximately \$1,000,000,000. At that time fifteen per cent was the maximum tax. During the war the rates were raised until in 1922 the maximum of 58 per cent was applied. As a result incomes of that class dropped from nearly \$1,000,000,000 to \$365,000,000. It is obvious that a tax of 25 per cent upon such incomes would raise more revenue for the government by expanding the taxable income than is now collected. At the same time, the country would enjoy the additional benefit of this large amount of capital being employed in productive enterprise. The consequence of this manifestly would be more industrial activity, better business, increased employment, better wages and lower prices.

Mr. Mellon's proposal is not to enable the rich to escape taxation, or to favor them in any way. "I seek to relieve business of taxes that raise the cost of living to everybody," he says. "And I seek at the same time to increase the revenue of the government by levying taxes that can be collected." The public, that is the ultimate consumer, pays the tax in the long run. The heavier the tax the heavier the toll. Any tax policy which forces capital out of productive business and raises the cost of living in an unwise tax. We believe the people who appreciate the fact that the application of sound business principles to government reacts to the good of all see this, and the re-election of Mr. Coolidge by an overwhelming majority is good evidence that they wish this policy carried out.

PROSPERITY AND AGRICULTURAL TAXATION

The annual report of the Secretary of agriculture, signed and submitted by the present Secretary and former Assistant Secretary Mr. Howard M. Gore, touches on the subject of taxation. The farmer's tax burden, it says, is inequitable and excessive.

The tax too often has little or no relation to the farmer's income. Selling values of land serve as the basis of assessment and they do not take into account current earnings, while, at the same time, future value is reduced.

Obviously, this is impractical and unjust assessment and taxation. The real value of land is not the land's prospective

value, which is nothing more than a possibility, but the value which is denoted by income from production. The farm is a business layout. It is worth what it earns. Selling value is but conjecture. It is a fictitious selling value, if, as farm land, it is fixed at any other capitalization than that which actual earnings show.

As the report says, the land personal tax system should be modified for the farmer, assuming that the statements are, as they appear to be, correct. That property which is, strictly speaking, merchandise stock, should not be levied on at all, or the appraisal should be extremely low.

Machinery should be appraised at its saleable value. Land should be valued according to its earning capacity. All productive enterprise needs relief from excessive taxation, and agriculture particularly.

Touching the improved condition of agriculture, there was a half billion dollar increase in the value of farm products this year over last year, according to the report of the department of agriculture. Though economic conditions are not fully rectified, they have much improved and they are undergoing gradual adjustment. This is pleasing information. It indicates that agriculture will share this year in the profits accruing from prosperity.

Grain producers will earn something like \$300,000,000 more this year than last. Cotton planters will hold their own under favorable circumstances. "In the main," says the report, "it may be said that the year will bring increased income to the surplus producing regions, to the corn belt, and possibly to the cotton states." And further: "Returns on the estimated present value of farm capital from this income, if operating costs were not greater than those of the crop year of 1923, would amount to 3.8 per cent. This return is much below the average return on other capital."

The present value of agricultural property remains somewhat inflated. Nevertheless, it must be recognized that there are many farmers who carry on their work to disadvantage, and the return to them on their investment and labor is not adequate. It is gratifying, therefore, to note that the department of agriculture counsels farmers to disregard makeshifts and to direct their efforts toward regularizing their business in conformity with economic laws. There is no panacea for agricultural difficulties.

"The relationship of the government," declares the department, "to cooperation should be one of service. It should help the farmers market their crops just as it helps them to produce crops, not by doing the work, but by supplying information which the farmers cannot get for themselves. To go further would be to injure rather than aid the cooperative movement."

Better times and better circumstances produce the state of mind which discriminate between destructive agitation and constructive adjustment. The big problem for the farmer is to regulate production and marketing. It will be worked out only along economic lines, in conjunction with lowered and more equitably adjusted taxation.

TODAY'S POEM

By HAL COCHRAN

WHAT TO A CANARY.
You are chirpin' for, little canary?
Why are you feelin' so gay? Hopkin'
throughout the whole day?
Almighty defender and frail as can be, and yet
you live on through the years. Often, it seems,
you're a puzzle to me. Why is it your attitude
changes?
Shrill little voice with it's warble so loud cheers
everybody a-ho. Maybe it's true, you have cause
to be proud and reason to sing as you fly.
Folks stand and watch you but miss the real up
side, you're merely singing all day. Right into song
and you give them a trip but the benefit passes
away.
Robbed of your freedom and held in a cage never
to answer flight's call. Yet you are calm and never
fly in a rage and you sing on in spite of it all.
There is the lesson that folks ought to know.
You can't always have the best breaks. But man,
an keep happiness ever aglow if the right sort of
mule he takes.

Health Talks

BY WILLIAM BRADY, M. D.

Noted Physician and Author

Dr. Brady will answer all signed letters pertaining to health. Writers' names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped, self-addressed envelope is enclosed. Requests for (linguistic or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

VARIATIONS OF VARIOLA

I call it variola not just to be pedantic and show how much I know but because variola is the right name for it. And it isn't a new kind of radio receiver. It is a properly dreaded disease which too many people insist on having, a disease which kills thousands each year, sadly maims or marks other thousands who are stricken but not killed, and with the irony of fate picks out for attack those members of the community who are uninformed or misinformed.

The prevention of variola is a matter of personal volition. Each individual must will for himself whether he desires protection against variola. The preventability of the disease varies directly with the intelligence of the community.

Perhaps we should explain before we go any further that the common or "big name" for variola is "smallpox." But this name is objectionable for several reasons. One reason is that it connotes, in the mind of the uninformed or misinformed layman, something foul or vicious, a misconception which is thoroughly exploited by those who seek to profit upon credulity.

Vaccination is the protection which every individual may have against smallpox. Successful vaccination means inoculation with vaccinia, which is a comparatively mild disease, in all probability (no body knows definitely) a form of variola which has been modified by passing through the calf. If we are to be consistent we should call vaccinia "cow pox"—but we don't, and neither should we call variola "smallpox." Vaccination is inoculation with a very mild disease which confers sufficient immunity to provide against an attack of the severe form of the disease. Vaccination is virtually variolation, but with the curse taken off by our friend the cow.

Variola, I say, seems to select the uninformed and the misinformed as victims. Every outbreak, every epidemic of this disease starts among the ignorant part of the population. Either the subjects stricken with variola didn't know of the importance of being vaccinated, or they have been misinformed and led to believe vaccination was unnecessary or even dangerous.

Vaccination does not confer absolute immunity, but only relative immunity. Indeed, there is no such thing as absolute immunity against any known disease. Even the goat sometimes has tuberculosis, though ordinarily endowed with a high degree of immunity against that common taint of domestic cattle and civilized man. There is no definite duration of the immunity conferred by vaccination, though probably vaccination in infancy or early childhood does give some immunity for a lifetime.

If not sufficient to protect the individual against overwhelming infection, the immunity of many years. Ordinarily one vaccination is sufficient for life; but in the presence of an epidemic the wise course for all who have been vaccinated in infancy or early childhood is to give it a try once more—if immunity is still active the vaccination will not "take" and in any event no harm is done.

Only the unvaccinated need worry about the risk of infection in time of an epidemic of variola. If vaccination were universal, voluntary or compulsory, these outbreaks of variola would not occur and an enormous saving in lives and money would be effected in the country.

QUESTIONS AND ANSWERS.

The Cold Diabetic.

I am a diabetic, 51 years old. Urine has been sugar free for two years on a diet of 80 protein, 100 fat, 150 carbohydrate. I feel good in every respect, but even though comfortably clothed with stout shoes and warm socks and gloves, my feet and hands and ears are cold even on a moderately cool day. Is this attributable to my diet? Should I use my doctor? (H. H.)

Answer.—Well, you're sailing along on 1,800 calories, I suppose. If you are at all active that is somewhat below a maintenance diet for an adult of average size. Perhaps you can now try a little adventure in carbohydrate. Yes, you should consult your doctor about it. More exercise enables you to metabolize more carbohydrate, notwithstanding the diabetes.

Viennese Open

Their Arms To

Second Jeritza

(From Neues Wiener Journal, Vien-
na.)

They call her "the second Jeritza."

This name makes her a bit nervous
and apparently even afraid. She is
reserved and makes no pretensions.
Yet she was the star of the Budapest
opera house and will be the
prima donna of the Vienna opera
this coming season. Her name is
Maria Nemeth, and it is a name which
some day will have a prominent place
in the musical world.

I first heard Maria Nemeth's voice
in the hotel where she had rented an
apartment before appearing for the
first time in Vienna opera. Her
apartment was filled with flowers
which Budapest admirers had sent
her to express their regrets at having
lost her. In talking to Mme. Nemeth
I had the impression that she realized
what a big step she had taken in
changing from Budapest to Vienna.

"I beg of you," she hastened to
say, "do not call me 'the second Jeritza.' God knows who invented this
epithet for me; it is most embarrassing.
I know so very well that it
would mean to become a second Jeritza
at the Vienna State Opera house. I
also know how this unique singer
had to struggle before she reached
the level upon which she is now stand-
ing. And now I come, and am called
'the second Jeritza' without having
sung a single note before Vienna au-
dience! That would be quite with-
out taste."

"And the most dangerous thing
about it is that the expectations of
the public are so much aroused that
I'll have to muster a great deal of
courage to appear before it. Don't
you think that the favorable pre-
judices of the Vienna audiences hurt
rather than help me?"

When Maria Nemeth talks this
way you might almost believe that
she is not the great artist, who de-
spite her youth, has won great tri-
umphs and who made the opera in
Budapest sell out all tickets 50 times
during the season. It is almost in-
credible that she should so anxiously
avoid being compared with Jeritza.
There is much about Maria Nemeth
which reminds one of her great col-
league. Maria Nemeth is as tall as
Jeritza; she has her blonde hair and
her blue eyes. Only in temperament
do the two great singers seem to
differ. Maria Jeritza is enterprising,
fiery and aggressive. Maria Nemeth
is softer and more restrained.

"How did I come to Vienna?" she
repeated my question. "Director
Salk heard me at a private social in
Budapest, and I owe my engage-
ment in Vienna, simply to the good
impression he gained of my voice.
I am very, very happy to appear in
Vienna. Maybe I shall be able to
make the Viennese forget a little
that they lost their Jeritza."

O. Is the statement true that the
Girl Scouts organization came out of
the South? N. F.

A. The Girl Scouts organization
was founded in 1912 by Mrs. Juliette
Low, in Savannah, Georgia. The origi-
nal enrollment was but a hand-
ful, but now the complete registra-
tion of the Girl Scouts Incorporated,
as they are called, with headquarters
at 189 Lexington Ave., New York,
amounts to 203,762 members. The ex-
traordinary development of this move-
ment can be explained by one thing
only: the tremendous demand and ap-
preciation of the work it accomplishes
in taking girls at a formative period
in their lives and instructing
them in mental and physical hygiene
and in the use of their minds and bod-
ies to the benefit of their commu-
nities and, beyond these, of their coun-
try.

J. Are there any flies as far north
as Alaska? E. R.

A. Dr. John Aldrich of the Nation-
al Museum says that there are no
houseflies in Alaska. He found plenty
of houseflies everywhere, but no
houseflies. The common fly is by or-
der a tropical insect and cannot en-
dure cold weather. Even in our north-
ern States only a few houseflies sur-
vive the winter. Mosquitoes, however,
are a common pest in Alaska. Dr.
Aldrich found two species there pre-
viously unknown to entomologists.

Big Crowd At Bazaar In Church

About 850 persons were served at the cafeteria of the Methodist Christmas bazaar Friday in Methodist Episcopal church. This event was a celebration of the fiftieth anniversary of the first Christmas bazaar in the present Methodist church, and because this is the last year in the old church, the affair was conducted in a particularly elaborate way. Six booths were set up, with two of the clerics of the Social union in charge of each booth. Sales began about 9:30, and continued throughout the day. Cafeteria dinners and suppers were served, and lunch was provided all afternoon.

Mrs. A. B. Fisher, president of the Social union, was hostess of the day. Mrs. A. B. Fisher was in charge of the dining room; Mrs. W. D. Kurz of the kitchen and Mrs. J. A. Holmes of the costumes, which the women wore to create an atmosphere of festivity. Many of the costumes were the authentic ones of fifty years ago, and their wearers found some difficulty in readjusting their natural bulky costumes.

Miscellaneous articles of linens, fogs, children's clothing, doll furniture, and fancy work filled the booths. Probably the exhibit booth drew the greatest crowd because of its unusual collection of needle work of fifty years ago. Mrs. Fisher brought two quilts for the collection which were the work of her grandmother. The wool for them had been carded, spun, dyed and woven by hand. Two beautiful quilts were given by Mrs. E. H. Roudabush, and Mrs. L. M. Edmonds. Mrs. E. M. Saunders sent in a wooden doll which had been carved and used by members of her family probably in 1842. Miss Dorothy Wolf brought a baby dress worn by her grandmother in about 1846. Miss Hulda Boudens brought samplers made by little girls of about 1850.

Among other articles of ancient vintage was a bonnet over 100 years old, which furnished a spectacle as well as a head covering. It was called a "bellows bonnet," because it rolled back when the sun wasn't shining and lay in folds. This bonnet caused a great deal of merriment among the visitors at the bazaar and it was demonstrated time and again.

MENASHA HIGHS DEFEAT KIEL IN OPENING BATTLE

Visitors Outclassed in 15 to 8
Game in S. A. Cook
Armory

Menasha—Menasha high school football team defeated Kiel high school team 15 to 8. The game was played at S. A. Cook armory Friday evening. The score would indicate and proved that Menasha has the strongest team it has had in several years. The lineup: Jensen, center; Remmel and Smith, forwards; Ryan and Pierce, guards. McLaughlin substituted for Remmel and Chapman substituted for Ryan.

Menasha high school basketball team will play Hortonville high school team at S. A. Cook armory Friday evening, Dec. 13. The schedule contains only one open date.

COUNCIL DISCUSSES INSURANCE BOOST

Menasha—The Menasha common council met in a committee of the whole at a special session Friday evening to consider the advisability of increasing the amount of insurance on its municipal electric and waterworks plants in which new machinery has lately been installed. The matter of insurance was discussed in detail but no definite increase was arrived at.

PREPARE SHACKS FOR ICE FISHING

Menasha—Twin City fishermen, of whom there are more than 150 who make it practice of fishing through the ice on Lake Winnebago and Lake Butte des Morts each winter, are getting their shanties and lines ready for the first real cold wave. According to one fisherman who has fished through the ice annually for more than a quarter of a century, the fishermen do not move their shanties until the ice is about six inches thick. The majority fish on Lake Winnebago, locating their shanties at a point where the water is from 12 to 15 feet deep.

SOCIAL ITEMS AT MENASHA

Menasha—Herman W. Grade entertained a group of friends Thursday evening at his home, 313 Tayco-st., in honor of his birthday anniversary. Games were played.

DR. PRATT HITS BUS STOPPING ON HIGHWAY

Menasha—While returning from Appleton Thursday evening, Dr. George M. Pratt of Neenah damaged his Hudson car by striking a motorbus near the Whitman farm which stopped unexpectedly in front of him. He escaped injury.

CITY GETS STATE AID ON STREETS

For the first time in history Appleton will receive state aid for maintenance of local streets that are connecting links of the state highway system in this county. A check for \$1,548 was received Friday by Fred Bachman, city treasurer, from the state treasury department for use on these streets next year. A change of the state highway maintenance law makes it possible for cities to receive aid for trunk highways they maintain.

STUDENTS NAME EDITOR AND MANAGER OF ARIEL

At the annual election of assistant editor and business manager of the Ariel, Lawrence college year book published by the junior class, Gordon Clapp of Ellsworth was named assistant editor and Ralph Wawack, Marshfield, assistant business manager. They are sophomores, and will work with the actual heads this year to learn the work, and succeed to their positions next year.

Reed Havens, Long Beach, Cal., is editor and John Barnett, Neenah, business manager of the publication. Rules adopted by the college in 1923 provided that the Ariel should be taken from the control of the junior class and placed under control of the All-College club; that sophomores should make the nominations for editor and business manager, but election must be by the All-College club.

M. E. CHURCH CALLS OFF ITS EVENING SERVICE

The Fireside Fellowship hour which is usually held Sunday afternoon in Methodist Episcopal church parlors, will not be held on Sunday, because of the program in the chapel Sunday evening. So many young people are taking part in the program that it was not considered feasible to have the Christmas party which had been planned. Regular Sunday school and church services will be held at 9:30 and 11 o'clock. Devotional services will be held at 4:30, as usual, and Miss Dorothy Peterson will lead the service. The congregation will join the other churches in the city in sponsoring the musical program at the chapel. No service will be held in this church Sunday evening.

CALIFORNIA TRIP IS HALTED BY ACCIDENT

The windshield and top and both front lights of a small touring car driven by Edwin Nichols of Iron Mountain, Mich., were broken Friday evening when the car slid into the ditch, broke off a telephone pole and turned over on its side on the Kimberly road about two miles east of Appleton. Mr. Nichols turned out to allow a car to pass and skidded from the concrete. Neither the driver or a Mr. Jones who accompanied him were injured. The men were on their way from their home in Iron Mountain to California where they intend to spend the next few months.

Sign Breaks Down

The heavy metal and glass sign above Schaefer Bros. grocery store on West College-ave. was knocked loose by the strong wind Friday night and was held by one wire until help arrived Saturday morning. The strength of the wire saved the glass window on the west side of the building, through which the sign would have crashed if it had broken loose completely.

MOTOR CLUB JOINS STATEWIDE ROAD SAFETY MOVEMENT

Favors Licensing of All Drivers
and Elimination of Drunken
Drivers

Statewide traffic safety plans of Sheboygan Safe Drivers club were given endorsement by Outagamie Safe Drivers club at a meeting at the chamber of commerce rooms Friday evening and the organization agreed to send a representative to a meeting of all Wisconsin clubs which will be called later. Considerable discussion took place concerning licensing of drivers, proper display of lights and the menace of the drunken driver.

Sheboygan's safety club has written to all of the existing organizations, of which there are six or seven, asking that they hold a meeting at which plans would be made to organize in every county and unite the efforts of members to secure uniform and effective legislation. The plan was explained to Outagamie club and secured ready approval.

It was the sentiment of the club that a law should be passed licensing all drivers. Those who violate the laws for the second or third time then could be prohibited from driving for stated periods or forever and their cars impounded during the time.

Chief George T. Prim of the police department was present and promised cooperation of his department in any moves the club might make for increased traffic safety. Most of the automobile light lenses sold now are properly angled to comply with the law, Chief Prim said, but the great trouble is that motorists do not properly focus the lights. The glare is not caused by the lens but by the reflector, which often is not in proper position to throw the light downward rather than at an angle that strikes the eyes of another driver.

Drunken drivers should be prohibited entirely from operating their cars, the club agreed. Members discussed remedies for this menace of the road and also expressed their opinions concerning the careless and reckless driver and the methods of dealing with him.

LAWRENCE DROPS FEW STUDENTS FOR FAILURE TO WORK

Supervisory Councils Keep Close Check on Work of Young People

Lawrence has no "sore-eyes special." It has become a common belief among those who do not know the facts, that every year at Christmas a large number of students are forced to leave school for scholastic reasons. According to Dean Wilson S. Naylor, acting president of Lawrence, this is not the case with the local school.

"It is true that a few students are dropped at the end of the first quarter," Dr. Naylor said, "but the number has been greatly exaggerated. The Freshman council has kept close watch on the freshman, and the council for upper-classmen has done the same for them. As soon as a student becomes lax in his work, he is called on the carpet. If there is a reason for his failure, the cause is remedied. Then if the student has any self-pride about him, he will succeed."

TOO MUCH WORK

One reason given by Dr. Naylor for "flunking" is the attempt of students to work their way and carry a full curriculum of studies. Several students last year attempted to carry sixteen hours, a complete college program, and to work eight hours a day outside of school. This year the faculty committees have been able to choose this in many cases, either by advising the students to work or earn sufficient funds and then come to school, or by lightening his burden.

It has been hinted that several of the "sore-eyes" on the mythical special are caused by the drinking of hard booze in the larger universities. This may be true of some of the larger schools, where the enrollment is so large that close personal supervision and guidance is impossible. Although the entrance conditions of Lawrence are strict enough to exclude the majority of this type, a few creep in each year. As soon as this "rotten timber" is discovered, it is dropped without further questioning.

STAGE AND SCREEN

A VITAL THEME THAT CONVEYS REAL LESSON

Lionel Barrymore, the distinguished Belasco star, appears in "Meddling Women," his latest and finest screen achievement, which was made by Chadwick Pictures corporation, is coming to the New Bijou theatre, on Monday, Tuesday and Wednesday. This new starring vehicle by Lionel Barrymore ranks among the cinema classics of the current season. The theme of this masterful photodrama dwells upon a cannibalistic estrangement, which has been brought about by the interference of mischievous and stupid women folks of a young couple.

In support of Lionel Barrymore, there are two internationally famous stars in the duo personalities of Sigrid Holmgren, known as Sweden's Mary Pickford, and Dagmar Godow, the exotic movie vamp. The exceptional cast also includes such celebrated thespians as Hugh Thompson, Ida Darling, Alice Hegeman, Antonio D'Algy and William Bechtel.

ANOTHER GREAT VAUDEVILLE BILL AT APPLETON THEATRE

Heading the bill at the Appleton theatre for Sunday is the Five Cranes, a talented man and his wife and three children who display more ability than the famous Fox Family who managed to be a sensation on the big time for years, they have a clever routine of singing, dancing, yodeling and a bright line of dialogue. Evans and Leever "The Kings of Fashion" have an amusing comedy offering both boys being real comedians and having pleasing personalities. The Max Freehand Duo "European Novelty Balancing Surprise" I can act exemplifying the advantages of Physically Balancing Surprise "Is an act of exact Culture executing many difficult and really interesting feats of skill. ELITE THEATRE

"Love and Glory," the Rupert Julian-Universal-Jewel feature which is showing at the Elite Theater for the last time tonight, is a colorful story of France during the period of the Franco-Prussian war with a fifty year lapse of time, which brings it up to date for the closing scenes. It has a little of war and much romance, with a picturesque setting in a peasant village of Southern France. It is Julian's first big picture since "Merely-Go-Round" and should meet with the same widespread popularity. The cast features Charles De Roche, Wallace MacDonald, Madge Bellamy, Gibson Gowland and others.

"LOST MINE" ROMANCE TOLD IN SCREEN PLAY

The scene of "The Mine With the Iron Door," the new Sel Lesser Principal Pictures feature photoplay which has been adapted from Harold Bell Wright's latest and greatest novel, is laid in what is peculiarly Harold Bell Wright territory, the Catalina mountains in Arizona.

"The Mine With the Iron Door," says Mr. Lesser, was made in a locale which was well light ideal for motion picture production.

"Strange stories drift about region," he says, "and thither many men have come—Spaniards, explorers, Indians, cattlemen, seeking for gold, and adventurers of all types,

HEILIG ATTENDS EDUCATORS' MEET

H. M. Heilig, director of Appleton vocational school, is attending the eighteenth annual convention of the National Society for Vocational Education, in Indianapolis, Ind. He will return Tuesday.

Thursday's meeting was devoted to administration problems in vocational education and city and state Superintendents of schools had charge of the program. The annual business meeting was held Saturday morning and national leaders outside of the professional field were the speakers.

Important problems, discussed by the convention were Industrial Training in the Small Plant and Small Community, Training Instructors, Utilization of Public Education Service by Industrial Plants, Agricultural Education, Part-time Education, Home-making Education, Vocational Guidance and Commercial Education.

from every land. These men have scaled the mountain heights, up, up, beneath the bluest of skies, over vast deserts they have traveled up into the wilderness of mountains and into the mighty Canada del Oro (Canyon of Gold). Even today in these men still hear of the great lost mine and its fabulous wealth in raw gold—

ADJUST VALUATION OF PHONE PROPERTY

Revised Figures Are Presented to Rail Commission at Madison Hearing

Valuation of the Appleton plant of Wisconsin Telephone company has been revised to overcome objections made at the Appleton hearing on increased rates here early this fall, according to reports received from the hearing before the railroad commission in Madison Thursday. Attorney Homer H. Benton, representing the chamber of commerce, A. C. Rosset, city attorney and J. T. Quinlan, manager of Appleton district of the telephone company, were among those from here present.

Question was raised here as to the accuracy of valuation on which earnings were based, because it was contended that the property was used for both local and district operating purposes. The appraisal now has been revised so that these two valuations are separated.

The chief argument at the Madison hearing was that of the rate of depreciation. The basis of computing it always has been five per cent but the company asks seven per cent so as to build a safe reserve.

All facts and figures which were asked of the telephone company at the Madison conference, and copies supplied to the Appleton attorneys who were present. Representatives from Appleton, Janesville, DePere, and South Milwaukee attended, since data sought by the commission will be used in dividing applications for increases in a number of Wisconsin cities.

Life's Service Station

For the convenience of our patrons and friends in Little Chute and vicinity the Whole Grain Wheat Company has appointed Mr. J. H. Kilsdonk, of 237 Depot-St., Little Chute, as Distributor of WHOLE GRAIN WHEAT in charge of Life's Service Station here. At this address you may now obtain information and service of incalculable value to your health and efficiency.

If you are not already acquainted with Whole Grain Wheat, you are cordially invited to call and learn why it has swept into national prominence as the world's greatest food.

If you cannot come write. And, by all means, ask for the "Book of Life," and other vitally interesting food literature.

WHOLE GRAIN WHEAT is not a medicine although it is used and prescribed by thousands of the leading doctors of America because it has proved beyond question that it tends invariably to restore the body to normal function. It is a three-meal-a-day food—not a breakfast food—for every member of the family, distributed by our authorized distributors rather than through the grocery store. It is prepared ready to eat, in 11 ounce tins under a process which has the endorsement of "The Tribune Institute," of New York, "Good Housekeeping" and "Modern Dietetics" and is protected by the United States and Canadian Governments.

In the files of the WHOLE GRAIN WHEAT COMPANY, 1916 Sunnyside Ave., Chicago, Ill., are hundreds and hundreds and thousands of letters from all parts of the United States gratefully and voluntarily offering testimony of relief from and correction of over 70 of the common physical ills such as High Blood Pressure, Asthma, Bright's Disease, Stomach Trouble of all kinds, over and underweight, and even some cases of Cancer, and mind you not one of these letters was solicited.

Every WHOLE GRAIN WHEAT distributor is appointed to SERVE you in solving the most important problem in the world—that of the food you place in your body. He is able literally to "take Time from Eternity" and add it to your life by supplying your body with the 16 mineral elements and vitamins without which health and efficiency—and even life itself—cannot continue.

Valuable educational and descriptive literature will be furnished on request—a photograph record "THE MAINSPRING OF LIFE" will be loaned free.

Phone or mail your order to the address below—delivery will be made promptly. In writing please enclose check—\$2.00 for a dozen 11-ounce tins (never sold in smaller quantities or thru grocery stores). Orders received by phone will be billed C. O. D. Ask for literature.

JOHNSON CAST IN HERO ROLL IN FILM AND ON GRIDIRON

Former Lawrence Football
Player Makes Mark in West
Point Dramatics

A military hero or a movie star. That is the decision which must be made by Eddie Johnson, former Lawrence college football star, who graduates from West Point in June. His exploits as an athlete and a leader are well known to Appleton people and now Eddie has blossomed out in another field, where he seems destined to add greatly to his already numerous laurels according to an article in Sunday's Milwaukee Telegram.

Here is the story:

If Horatio Alger were alive today he could find material for one of his 15 or 16 stories in Edwin L. Johnson, son of Mrs. Jennie D. Johnson, 184 Fifteenth st., Milwaukee.

This latest bid for fame is in Classmates, a story of West Point, filmed at the national military academy under government supervision. Richard Barthelmess is the star of the film, to be shown shortly at the Wisconsin theatre but young Johnson and three other cadets helped direct the scenes laid at West Point. In addition Johnson plays one of the student leads in the picture.

Like the fictitious characters in the Alger yarns, young Johnson, whose father died when the boy was an infant, worked his way through high school and through part of a college course, finally securing an appointment to the United States Military academy.

Even while he was in high school a taste for dramatics and athletics asserted itself. He tried for the football team and was promptly and persistently rejected on account of lack of weight. Just the last year that came boy, not much bigger now than then, was a star on the Army team and the hero of the first touchdown in a Yale-Army game.

The high school authorities regarded his dramatic talent with a more kindly eye and when he graduated it was as president of the school dramatic club and as leading man in the annual play. All this while he was supporting himself by working at the Y. M. C. A.

Continuing his studies at Lawrence college at Appleton, Johnson earned the necessary money by playing a saxophone in an orchestra and by hauling trunks in his spare time. He made the football team and left the school at the end of two years a leader in studies, athletics and dramatics.

A summer spent at a northern resort as swimming instructor gave the boy an acquaintance with Congressmen John Nelson who showed his interest by securing him an appointment to West Point.

Johnson is winding up his career at the military academy in a blaze of glory. He is already cadet in charge of the platoon, is president of the dramatic club and a gridiron hero. As president of the Dialectic, as the dramatic club is known, he was selected to assist Richard Barthelmess in directing and casting the part of Classmates laid at the academy.

Noted Tenor Sings Sunday At Festival

One of the prominent tenors of the midwest, B. Fred Wise of Chicago, is to feature the community Christmas musical festival at 7:30 Sunday evening at Lawrence Memorial chapel under auspices of combined churches of Appleton. A recombined churches of Appleton. A recombined churches of Appleton. A recombined churches of Appleton.

Mr. Wise has a lyric voice of rich quality and rose to popularity right after his musical debut. He has been engaged to sing "Creation" with the Appleton Musical club, Chicago, the "Mersian" with the Choral union, Oberlin college, Ohio, and also is booked with several choral organizations. Critics are outspoken in their praise of his singing.

A brief devotional service precedes the musical program, with members of Appleton Ministerial association in charge. Dr. H. T. Penhedy will act as chairman, the scripture will be read by the Rev. H. A. Bernhardt, the prayer will be made by the Rev. E. M. Salter and a short talk by Dr. J. A. Holmes. Miss Sophie Sherman, Holt, recently returned from Constantinople, will present the cause of the Near East Relief. The offering, above expenses, will be given to this cause. Dr. Virgil B. Scott, will pronounce the benediction.

Saint Sages Christmas oratorio will be presented by the big chorus, with accompaniment by Fullinwider String orchestra and by LaVahn Mesch at the organ and Miss Maxine Helmer at the piano. Several selections from noted composers will precede the oratorio.

YOUNGSTERS WORK ON HOLIDAY PLAY

Third Grade Children of Lincoln School Make Debut as Actors

Third grade children of Lincoln school will present a Christmas play at 8 o'clock next Tuesday evening in Lawrence Conservatory of Music. The play is being directed by Miss Katharine Bachman, who is being assisted by Miss Dorothy Peterson and Miss Elizabeth Cameron, pupils at the conservatory.

The scene of the first act is beside a road, where fairies and elves are playing on Christmas morning. They bemoan the fact that the house is the side of the road is inhabited by people who are too grouchy and selfish to enjoy Christmas. Just as they

are talking, Santa Claus comes along and leaves what they are discussing. He says the fairies haven't made enough effort to brighten the lives of Squire Hardheart and his family, and that there is always some means by which the grrouchiest, unhappiest people can be made happy. Sunny Smile, one of the fairies, decides to try her smile on the family.

The second act is in Squire Hardheart's home, where Sunny Smile finds a dog who doesn't know what it is to be petted; a boy who is so used to knocks that he is sullen, a woman who is to accustomed to harsh words that she has lost interest in trying to make herself attractive and interest-

Michigan University Mentor Explains 15 Caging Rule Changes

Chief Alteration Applies to Sending in Substitutes to Convey Messages to Players

Ann Arbor, Mich.—Fifteen changes in basketball rules and interpretations for 1924-25 were explained Friday afternoon by Edwin J. Mather, University of Michigan varsity basketball coach to coaches and athletic directors of high schools and colleges in Michigan who met here Friday in a rules convention.

One of the first rules deals with the conduct of substitutes entering the game. The new ruling states that a substitute must wait until his name number and position to the scorer before going on the floor. The scorer will then sound his horn and the substitute reports to the referee. He must then actually participate in the game before being withdrawn. This rule is to prevent substitutes being sent in merely to pass information to teammates and then be withdrawn without playing.

This year the umpire is given more jurisdiction than in former years over the ball.

In previous instances last year the timekeeper's gun failed to report at the conclusion of the half of the game. This is the timekeeper is allowed to go out on the floor and stop play in such a circumstance. In former years this might have been considered as foul on the timekeeper and he would have been ejected.

The new rules also are clear on the matter of fouls made in the act of shooting. Under the present regulations if a foul is committed after the ball has left the player's hands on a shot, the foul is not counted. The new rule states that if a foul is committed while the ball is in the air, the foul is counted and the shooter is ejected.

DEFINES PIVOTING

Pivoting has been given a new definition. Just so long as the player's pivot foot does not leave the floor, he may hold the ball and pivot on his other foot. In previous years, if a player pivoted on his other foot, he was considered to have committed a foul.

Another change deals with fouling in the case of dribbling from a pivot. The new rule states that if a player dribbles from a pivot, he is not allowed to touch the ball with his hands. This rule is to prevent players from dribbling with their hands.

The repeated violation of fouling is treated as multiple fouls. Such often occur when the crowd pushes an official and the official is unable to control the crowd.

In the case of high schools, intermissions are shortened to 10 minutes. One minute intermissions are made legal between the end of the game and the start of the next game.

The new rule also states that in case of a foul, a player is not allowed to be ejected unless he is shown a red card. This rule is to prevent players from being ejected for minor fouls.

Another change modifies the awarding of fouls made on a player in the act of shooting. Under the new rule, a foul committed on a player in possession of the ball inside the 17 foot line gives him two free throws. A foul committed on a player outside the 17 foot line gives him one free throw.

FOURTEEN RIPPONITES GIVEN GRID LETTERS

Ripponites—Fourteen players have been awarded to the Ripponites. All but five of them will be available for the Ripponites in the next game.

The decision of captain will take place some time before the Christmas recess. The letters were given to Capt. Ted Olson, Lyman Olson, Christopher Olson, Pymson, Joe Gaudin, Huns, Glennie, Phletha, Leo Murray, Leo Vile and Rasmus.

Of the above players, Christopher Olson, Pymson, Gaudin, Glennie and Capt. Olson are in the line.

NEENAH GUARDS BEAT PLYMOUTH FIVE, 25-23

Neenah—in a game which went into overtime play after ending up 23 to 23 the Plymouth team defeated the Neenah team.

The game was a close one, with both teams playing well. Neenah won in the overtime period.

FONDY LOOKS FOR RECORD ENTRIES IN KEGLING FEST

Twelve Hundred Teams Said to Be Conservative Estimates, Report

Fond du Lac—Increased interest in the coming state tournament is beginning to manifest itself strongly in the tournament city and indications point to a big surprise for state bowlers when they see the huge entry that Fond du Lac will drop into the hat on Jan. 6 which is the closing date for entries.

Executive Committeeman Charles Brown of Fond du Lac is spreading the word of the coming tournament through the central part of the state and believes that from Marshfield down to Stevens Point to his home city the entry also will be a surprise.

One feature that the terms must not overlook is the fact that every one of them must be members of the American Bowling Congress and carry a team card on to the tournament.

Twelve hundred teams is a conservative estimate of the total strength of the tournament and the local club is expected to be one of the largest.

Get under the wire for good dates as well as all ready chess teams are now entering the tournament.

JOEY SANGOR WILL FIGHT AZZARRELLA ON FONDY PROGRAM

Rush for Tickets Indicates Large Gate at Dec. 18 Fight Show

FOND DU LAC CARD
Joey Sangor, Milwaukee, vs Joe Azzarella, Milwaukee, ten rounds at 130 1/2 pounds.

Jack Walsh, Milwaukee, vs Tony Dennis, Milwaukee, eight rounds at 126 pounds.

Buttling Herb, Oshkosh, vs Ray Riebel, San Francisco, six rounds at 128 pounds.

Bill Beck, Fond du Lac, vs Wally Hiedrichs, Kaukauna, four rounds at 150 pounds.

Fond du Lac—Jack Bunkhurst the local fight promoter has arranged one of the classic boxing cards in years for Dec. 18 here and the rush for tickets is the best testimony of the interest fans are showing.

Reports from Milwaukee are to the effect that the Chicago club fine was looking for a fight between the two headliners and several hundred of the city's best fighters.

Don't Waste Pity On Life Of Spinster

Whatever you do, don't pity the spinster. She may not have a home of her own but her life is hers.

She has read the Constitution of the United States and agrees with it that every girl is entitled to "life liberty and the pursuit of eligible bachelors."

She has never had to get dinner and rock the baby with one hand while powdering her nose and brushing her hair with the other, to keep from looking a perfect fright when hubby comes home at night.

Nor has she ever had to get breakfast, bathe the baby, and bring in the milk with one hand while powdering her nose and brushing her hair with the other, to keep from looking a perfect fright when hubby wakes up in the morning!

She knows that a man's idea of a wife is his boarding-house keeper.... and she will not be it.

QUESTIONS-ANSWERS

Dear Miss Grey: My wife is suspicious. Whenever I am not home right on the dot she cross-questions me like a lawyer. Do you suppose she could be this way with whatever man she happened to marry or is she just suspicious of me—Harry.

If you have never done anything to make your wife jealous, it must be that she is naturally a suspicious person. Why don't you tell her that whenever you do something that isn't just right you are going to have the courage to tell her about it?

Dear Miss Grey: I am engaged to a girl who knows that we can't afford to be married for at least two years. She insists upon accepting invitations from other men. How can I stop her? G. B. S.

You can't of course. A great many women take the attitude that they are protecting themselves by such a course. They figure that if the engagement is broken they are not left so forlorn as though they had no other men friends. It's a wrong attitude where a really serious engagement exists. Are you sure your fiancée is serious? (Copyright, 1924, NEA Service, Inc.)

Household Suggestions

KEEPS PIE CRUST

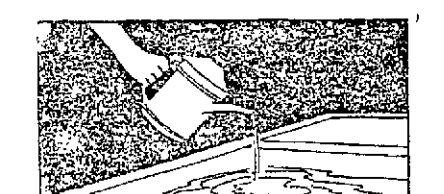

If you have any pie crust left over after baking, roll it in cheese-cloth wrung out of cold water and then in a second thick dry cloth. Then put in a cool place and it will keep fresh for a week.

ADD FRENCH DRESSING

All vegetable, meat and fish salads are improved by standing in French dressing for an hour or more.

KEROSENE AND BORAX

The addition of a small quantity of kerosene and borax to the soapy

water in which clothes are soaked loosens the dirt and makes them much whiter.

TOMATO SEASON

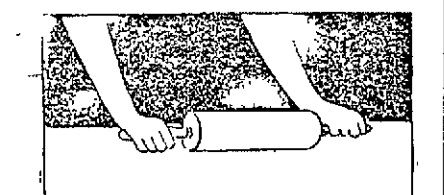

Baked or fried tomatoes should be served frequently during the season when tomatoes are plentiful and cheap.

WEIGHTS FOR CURTAINS

Weights such as tailors used in coats are good to insert in the hems of curtains to keep them flat.

ROLLING PIN

A porcelain rolling pin is preferred by household experts to the wooden

variety since it is possible to keep it much more sanitary.

Christmas Candy

'BROWNIES'

One-half cup butter, 1 cup sugar, 7 squares bitter chocolate, 2 eggs, 1/2 cup flour, 1/2 cup pecan nut meats, 1/2 teaspoon vanilla. Cream butter and sugar. Add eggs unbeaten. Stir in nut mixture well. Add chocolate melted over hot water. Beat well and add vanilla and flour. When thoroughly blended stir in nuts. Oil and flour shallow pans and spread mixture thinly in pans. Bake 20 minutes in a slow oven. Cut in squares as soon as taking from the oven and remove from pan.

VENTILATION

If doors and windows are on opposite sides of the room, a cross current is set up when they are opened and the room is quickly filled with fresh air. When there is but one window and the door opens to a hall, a cross current may be secured by opening the doors and windows of other rooms at the same time. In very cold weather it is a matter of great difficulty to keep the rooms warm enough for comfort and yet well aired. As far as the nursery is concerned, this must be made a regular part of the mother's daily program. Day-time ventilation should be secured several times a day by opening all the doors and windows wide for a few minutes while the baby is out of the room, allowing the cold air to flood every part of the room, as it will very quickly do. The windows should then be closed and the heat turned on to restore the temperature before the baby is brought back. In milder weather, the window may be left open a crack at the top, or more or less constant ventilation may be secured through the use of various devices.

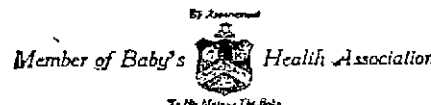

WALLS AND FLOORS

The baby's room should be kept scrupulously clean. If the house is old the nursery should be freshly papered and painted. The walls may be painted or covered with waterproof wall paper which can be wiped off with a damp cloth.

A bare floor may easily be kept clean. Hard woods are preferable since they do not splinter, but a soft-wood floor painted or varnished will do very well. Linoleum may be used on an old floor. It is easily cleaned. Washable rugs may be used. If desired, but heavy rugs and carpets are not suitable for a nursery. When the baby is large enough to sit on the floor to play, a mat or a heavy blanket folded or even a clean comfort may be used as a mat. This is most important in winter when there are cold floor drafts. A play pen with a raised floor is a great convenience in such circumstances. Great care should be taken to protect the baby from flies and mosquitoes.

To The Mothers of Appleton

If any mother with a baby under one year of age has not received a copy of that beautiful and authoritative book, "Baby's Health" call upon the Appleton Post-Crescent, or any member in Appleton of the Baby's Health-Association and a copy will be given free.

LETTER FROM SALLY ATHERTON TO BEATRICE GRIMSHAW

Of course, I didn't get a minute of time to say anything I tried to do while you were here. O dear. Sometimes I think that when any one writes as frankly and sincerely as you and I to each other, friendship of long standing is on safer ground than when one depends upon hurried visits when so many other things have to come between.

I'm quite sure you never have looked forward to something superlatively blissful. I'm quite sure that in your sensible mind you have known that "marriage is really only a business partnership by which two people of presumably the same tastes and station in society, pledge themselves to help carry on the race. If you look for only this you will probably get much more. There, you didn't think that Sally would say this to you, did you? I've always known that this is the true meaning of marriage, Bee, and that is why I have always fought against it. I don't want children. I'm selfish enough to want complete freedom. If I go to the devil I want to go in my own way without taking anybody with me. Consequently I always eluded against my marriage with Sam, even when I was presumptuously, to my friends, most content with it.

Some women are not made for marriage, my dear, just as some women are not made to be writers of

Help Santa Claus Make Baby's Gift

The baby's wants are few, but he is an entirely too important person not to be given such a costly gift as Christmas time. His gifts must also be made in color, beautifully made and appropriate.

A matching sash and jacket of very wide satin ribbon would please the mother as much as the child. For a little girl, who early in life may be expected to manifest her delight in dolls and furbelows, the edges may be lace, trimmel and French flowers or tiny rosettes of ribbon decorate the scalloped.

SAFETY PIN CUSHION

For a young man who has not yet reached the age of protest, such an outfit would be more appropriate merely found with ribbon, and all scolding face and hours eliminated if you wish to add a little warmth to this outfit it may be interlined with a layer of flannel. Fastening buttonholing or any fancy stitch may replace the lace edging, if desired.

Since safety pins are so much worn by the younger set, a fancy container for them would be sure to be appreciated. The touch of fancy introduced by two kewpie heads and frivolous bows in the use of cushion neutralizes its utilitarian purpose and shows just how interesting such a device may be made.

A simpler model is merely a square or oblong cushion very soft and light in weight, covered with satin ribbon and trimmed with a bouquet of ribbon flowers.

For keeping his clothes neat and unwrinkled, the baby would appreciate a padded hanger, covered with ribbon to match the color scheme of his nursery.

Of course the hanger should be wound with narrow ribbon, and a

lad my experience is over, and I can settle back into doing just the things I want to do in just the way I want to do them.

Perhaps I'm a little more antagonistic to the whole matter today than ever before. I am afraid our poor friend Leslie has come a cropper. Some dirty dog—and between you and me I think it's some one very near her—wrote an anonymous letter to Mr. Prescott about an old lover of hers, some one who had known her since childhood, who I seems gave her a present of a fabulous string of pearls and told her that they were a imitation. Rather romantic, that!

Leslie, poor child, was always naïf, and accepted them in the same spirit that they were given in. In fact, I think she didn't know that this Karl Whitney gave them to her at all, but thought that her sister was the donor.

Adventures Of The Twins

A RIDDLE WITHOUT A BODY

"Dear me," said the Riddle Lady, "I'm sorry the Fat Man of Bombay isn't here to hear the next riddle. I do think he might guess it."

"What's that? What's that?" called the Fat Man who had been dozing in Mrs. John's rocking chair on the front porch of the House-That-Jack-Built.

"I was just saying," said the Riddle Lady, "that you should be here to guess my next riddle."

The Fat Man straightened his turban and fixed his sash and knocked the ashes out of his long pipe. Then he waddled down to the orchard where the Twins and Daddy Vander and all the Mother Goose people were waiting.

"All right! I'm here now," said the Fat Man sitting down cross-legged on the grass.

"This is the riddle," said the Riddle Lady:

"Peek-a-hoo! I see you! Please do not mind if I stare: When I see a hole I must poke my head through."

Like Aunt Sally Anne at the Fair.

"My neck is so weak that it waggles about. And my head is tied on with a string."

And I haven't a body, which is, without doubt,

A surprisingly singular thing."

"Hold on! Hold on!" cried the Fat

Man, "No fair using hard work! What does that mean?"

"Singular means queer," said the Riddle Lady.

"Well, why didn't you say so?" said the Fat Man.

"It wouldn't rhyme properly if I did," said the Riddle Lady.

"My goodness! Is this a riddle, party or a grammar class?" demanded Old Lady Ranberry Cross. "Why don't you go on?"

"I forget where I was, now," said the Riddle Lady looking over her paper. "Oh, yes, here it is. Third verse:

"I keep you as snug as a bug in a rug. I fasten your clothes and your coat. The first part of my name (now you'll have to think hard) Has something to do with a gear."

"Fat folk and sneezes and clothes-wringers light."

Are the things I most shrinkingly dread."

If I'm careless and don't hold with all my might, Pon I'm ruined, for off goes my head."

"It sounds like the Queen in Wonderland," said Solomon Grundy. "Just exactly. She was always 'offing with people's heads'."

"Well," said the Fat Man of Bombay, "I've thought of everything from lamps to lumps. I don't know what it is."

"Ho-o-o-o!" cried Nick. "I know. It's a button."

"How in the world could I ever guess that?" cried the Fat Man. "I don't wear buttons. I haven't such a thing about me!"

"Did you sneeze them off?" asked Nancy.

And everybody laughed so loud and so long that nobody noticed

PERFUME COVER

A decorated perfume bottle will brighten up a dressing table. The bottle should first be encased in cardboard container. This container can then be covered with canary brocade ribbon, put on with glue. Around the edges, may be glued a narrow sky-blue ribbon. At the front corner a tiny cut ribbon rosette adds decoration with a saucy sash tied around the bottle's throat.

INHERITANCE TAX SYSTEM THREATENS TO KILL ESTATES

Babson Points Out Need for Revision of System of Taxing Inheritances

Babson Park, Mass.—Roger W. Babson has added a new angle to the current discussion of tax revision. In a statement issued today the statistician calls attention to a tax situation demanding attention and meriting revision.

"Unreasonable or exorbitant taxation ordinarily gets the attention of the taxpayer because the situation is brought home to him forcibly when he must pay such a tax," says Mr. Babson. "We have a form of tax, however, which does not come under this rule and yet should have most careful thought and attention. A situation exists in our estate and inheritance taxes as they are levied and administered today which threatens to cut down, perhaps totally destroy, a man's home and life long efforts to provide sufficiently for his family. These taxes, both Federal and State, are individually sound and for the most part just and reasonable. The combination of them, however, produces unusual and often unfair results. At the recent convention of the American Bankers' Association it was stated that our present system of Estate and Inheritance Taxes might impose a tax of more than 100 per cent, in other words in an extreme case the taxes may eat up the entire estate and the heirs may owe more taxes after receiving absolutely nothing.

"The first tax to be levied is the Federal Estate Tax. A fixed percentage levied by the Federal Government on all estates of \$50,000 or over before any distribution is made. The rates are graduated so that the large estates pay a proportionately larger tax. Under this tax all property is treated alike. The situation is generally understood and the levy is reasonable. The moment that an estate is probated and ready to be turned over to their heirs several forms of state inheritance taxes may become due and payable. The state in which the deceased has been a resident ordinarily collects a tax on the entire estate. Complications set in here, however, since the rate of taxation varies with the relationship of the heir to the deceased and varies with the kind and location of the property. Children may be taxed more than husband or wife and heirs outside of the immediate family almost invariably pay a higher rate than the immediate family. Real estate and securities are taxed upon different schedules. The location of the property in either case has much to do with the tax that must be paid.

"Next the inheritance taxes of other states may become due and payable. Certain states, for instance, levy a tax on the inheritance of the securities of all corporations formed within that state. An Ohio corporation, for instance, may be represented in the securities making up part of the estate of a citizen of New York. Under these circumstances Ohio collects a tax from the heir who receives those particular securities. If a corporation is organized under charters in three of four different states, as the case of the railroads, it is possible that the same securities might be subject to three or four state inheritance taxes. Some states even tax the securities of a foreign corporation vested to a foreign heir if the transfer office of the corporation is within the state. Others levy taxes on the transfer of securities of any corporation doing business within the state no matter where it is organized, where the securities are held or where the heir resides. Securities held in a safety deposit vault in certain states are subject to taxes by the state for that reason alone.

"To illustrate the difficulty arising from this overlapping of taxes we might take a block of railroad stock on which the Federal Estate Tax must be paid because it is a part of the original estate. This stock in being transferred to an heir might be subject to a tax in the state of residence, to a tax in the several states in which the railroad was incorporated, to a tax in the state where legal transfer office of the corporation was located, to the state in which

Business Marching, Not Running To Higher Levels

BY JOHN T. FLYNN
New York—Three weeks ago, half a dozen readers wrote me complaining that I was throwing cold water on our oncoming business boom by talking about "business being moderate." I had written for months that business would go forward but not with a rush; rather with a slow, steady, wise and ordered march. So difficult is it to satisfy the appetite of the inveterate "beter," that this was referred to by one of these correspondents as "crocking."

By a curious irony of fate one of these letters objected to my account of improved conditions in the textile trade, declaring that it was at variance with all reports from that section. It happens that my statements about textile conditions are based on the reports of the largest reporting organization covering the textile fields. I knew that the mills were putting on new spindles, but I also knew that this increase was on a moderate scale. Now comes the news that Fall River and other mill centers were broadcasting reports of increased operations that were absolutely false. The charge is made that this was done to boost the price of cotton. I do not think so. It was part of that silly notion so popular with certain business groups that boosting alone can make business good. The public must be on its guard against this kind of propaganda now. The truth is that business is very much

a safety deposit vault holding the security was located and to possible taxes by other state in which the railroad might do business. The unfairness of this system is obvious: one security may bear one or two taxes, another may be subject to six or more individual levies. One heir's share may be taxed lightly; another's, due to the form in which the property exists, may suffer. "A Massachusetts estate of approximately \$3,000,000 was subject to a tax of \$691,000 or 23 per cent of the entire estate. These taxes were paid to the Federal Government and eighteen different states. A large Illinois estate amounting to approximately \$23,000,000 was left to a daughter and two sons but the will provided especially that the two sons should pay all taxes. Their shares in the estate amounted to \$1,800,000 and \$2,800,000 respectively, the residue of the estate going to the daughter, but the taxes on the estate came to \$4,400,000. This left the two sons about \$2,000,000 in debt. Certainly if the deceased had known what his taxes were he would not have included this provision in his will as he did not intend to handicap his heirs with such a tremendous debt.

"No is the small estate entirely free from these dangers," continued Mr. Babson. "Federal Estate Tax rates of only \$50,000 or more but the individual state taxes may apply to very small inheritances. Not only do these collective taxes often represent an exorbitant burden on the estate itself but in the majority of cases they also tend to cut down certain shares more than others so that the heirs actually benefit in an entirely different proportion than that intended by the deceased. Because we never personally pay our own inheritance taxes many men believe that they have provided adequately for their families and as a matter of fact this complicated system and the overlapping of several individual taxes may cut the portion received by heirs so that the inheritance no longer represents the fortune intended.

"While we are revising taxes this situation should be gone into," said Mr. Babson, "and if the American Bankers' Association. The Investment Bankers or some other public spirited group of business men would codify a uniform and fair system of inheritance taxation, it is probable that the individual state could be brought to adopt it and the widows, orphans, and dependent heirs would be greatly benefited. In the meantime it is every man's duty to his family to check his own estate periodically to know what his tax will be and to make such changes in his property as may be necessary to eliminate unreasonable and unnecessary overlapping of inheritance taxes."

General business has increased in almost every line since election. The Indexchart then 7 per cent below normal now shows activity at exactly normal.

LONG EXPERIENCE FITS RADIATOR SHOP FOR ACCURATE WORK

Appleton Auto Radiator and Metal Works Equipped for Automobile Repairs

Eighteen years of practical experience enable August Frenz, proprietor of Appleton Auto Radiator and Metal Works, 785 Washington-st., to give the customer the best of service. In 1907 Mr. Frenz designed and made the radiator for one of the first Ford cars, at that time a six-cylinder automobile. He was in charge of the radiator department of McCourt and Co. of Chicago for a great many years and was in business for himself in that city before he came to Appleton three years ago. While conducting the business for himself in Chicago, Mr. Frenz did aeroplane repair work for the government mail service.

Radiators, fenders and bodies are repaired by this firm, work on frozen radiators being a specialty at this time of the year. They have the best and most up-to-date equipment for their work, especially for work on the body of a car. An electric trip-hammer used by this firm for body and fender work is the only one of its kind north of Milwaukee. After a car is repaired and painted it looks as good as new. A car which is completely wrecked can be entirely repaired and even painted right in the building without having to move it from place to place to have each separate piece of work done.

Much outside work is done by the local firm. Calls come from New London, Bear Creek, Kaukauna and Neenah-Menasha almost daily. Last year two frozen radiators were repaired for Wabeno firms and work was done for several firms in Wisconsin Rapids, a distance of 60 miles from Appleton.

The firm holds the agency for the Harrison radiator, one of the best-known radiators of the country. A feature of this agency is a free repair service for Harrison radiators on any car not over three months old. Denatured alcohol solutions are tested free at the garage of this firm. Reliable instructions on the proper care of radiators and the amount of denatured alcohol to be used in the radiator of any make of car built, as a freeze preventative also are given free.

May and June of last year. But what is significant is that it is moving up now, whereas last year at this time it was moving down. Since November the improvement has gone forward. Ingot production last month was 71.6 per cent of capacity. This week it is between 75 and 80 per cent of capacity. There is also evidence that buyers are preparing to restock and that deliveries during January will be still larger.

TEXTILE BOOSTERS SCOTCHED
For many weeks I have been reporting reopening of cotton mills and increasing working schedules. But I have also warned against the belief that cotton mill resumption was anything like as complete and permanent as it seems on the surface. Now comes the report that the Fall River mills have deliberately faked boosting notices about their operations. This ally practice has been adopted in more quarters than textile mills. There is a large section that wants to create an illusion of rushing prosperity in the hope that the public can be stampeded into crowding to the stores for purchases. This propaganda has emanated from manufacturers in lines that have had hard sledding for some time and are impatient of the slow recovery.

Ask for Them by Name
Kotex, the new sanitary pads, are inexpensive, comfortable, hygienic, and safe. They are made of Cellucotton — a remarkably absorbent material which makes Kotex easy to dispose of by following simple directions found in each box. Kotex come in a blue box with no other printing than the name. Just ask for Kotex by name — no counter conversation necessary.
